Today's Program:

Peggy Siers presented a program on FEMA and the role she plays when there is a disaster in the U.S.A. **Peggy** has had specialized training and is considered a reservist, even though she has been called to over 60 disasters since she joined FEMA. Among other things, FEMA advises on codes and flood plains, teaches disaster prevention, coordinates through a disaster, makes assistance available, trains emergency managers and administers the National Flood and Crime Prevention programs.

Go to FEMA.gov to find information on what to do to prepare for disasters, including fire.
